Pete

Sorry to bother on your day off, but I wanted to give you a heads up for tomorrow. I'd like to get on a conference call tomorrow morning with yourself and Tanner about the site. If you can arrange that, call me first so I can discuss the issues with you. I'm interested if there's anything that can be done to secure against major releases (valve caps, etc), to buy time to try and do something about the contents of the warehouse.

Thanks

Dwayne
